Exploitation of TALENT Materials

REFERENCES : (a) My memo SAPC-6027, 13 June 1956,  
"Plans for Utilization of TALENT  
Controlled Materials"

(b) Your memo SAPC-7032, 18 June 1956,  
subject same as ref. (a)

1. In reference (a) I furnished you with the preliminary plans of some of the offices under the DDI for use of the products of Project AQUATONE. Since receiving your approval of these preliminary plans, we have had some experience with the materials. We therefore desire to augment our preliminary TALENT staff up to a total of 162 positions in the DDI area. I do not include the CIA Elint Staff Officer's requirements in my revision, except for those personnel administratively responsible to AD/SI.

2. Tabs A-F attached detail the changes necessary in reference (a) to reflect the present situation. Your approval of the new T/O is requested.
